LGX Platform

The world's leading platform for sustainable securities

Since launching in international capital markets in 2016 as a first-of-its-kind platform, the Luxembourg Green Exchange (LGX) has changed the way that green, social, sustainability and sustainability-linked (GSSS) bonds listed on the Luxembourg Stock Exchange (LuxSE) and aligned with best disclosure practices are made visible to the world.

Recognised by the United Nations for its work in financing for climate friendly investment, LGX is the go-to platform for GSSS bond issuers from all over the world

Transparency driving action

At LGX, transparency is our guiding force. Pre-issuance disclosures are held to the highest standards, ensuring that bonds displayed on the platform align with internationally recognised market principles. By subjecting issuances to rigorous eligibility criteria, including the provision of a Second Party Opinion (SPO), investors are guaranteed access to transparent and credible investment opportunities.

Monitoring for Accountability

Unlike any other platform, LGX operates a rigorous monitoring system to ensure issuers provide transparent reports on the allocation of proceeds and the impact generated. This commitment to transparency and accountability not only strengthens issuers trust but also ensures the integrity of securities displayed on our platform.

Want to find out more about the LGX Platform?

Discover LGX and browse the latest GSSS bonds displayed on the platform or reach out to our team today to learn more.
